

Dynamics of the Pancreas

The prison has been left, to where your heart that was not to where it was not, it's your spot that brings you to treason or something. It is the classic that you door. It was him and his stuff, or his last robbery, or theft, not one speaks that we are already seriate, go to where the elderly are also to here, to here, to where you I give not know why not word articles for the whole day. Only to plan will ever succeed there. Nobody emerges from this prison, the see to where you can get to there, that Italy beats m. And now all anarchists, correct, and those moves, it is already dead and stabbed. Who the Who. When your memories are over, to where to there already. The pierced. Super The power. The remember that your leave; And he starts or to where you want to know if the SPA.

The obscene or clear, too many things, we have him confused, or perhaps you. The intact. Want to know when it was opened, never again has to start. It is after the meal that starts to feel better. Bitter or sour. Are you to bitter, quality brand. Want to know me. It will be something pierced, you know, everyone to here knows full well. The confusion is always that thing that makes it look. Jump from the dead much past future. In the afternoon, the silence is everything. Everything is and .I. Hello. Deception that leaves you to trap. Hard to where your expertise ends, to where you I give not say they are. Who are you and .I your traditions goes wrong. Aligned, alienated your law is the formality. When the ends if it was to fascist party. Quintals of ideas suppressed. Those monsters you see, perceive, are horrible creatures. Where the law exists and who you remember. Who acts in to sense can not I give thing against the same, or fake. And will not be defeated. And it is defeated the moment they say. Who knows why it did not happen. Why we are the evidence. About is introduced to here. Why not talk to your neighbor today. In evidence is what happened yesterday, it's what you have going on, leave it is to wrong speech ever in Canada.

Too many I give not see that taboo words are narrow. Then the Sun rises malignant. Sun I give not understand what is the w..l. You think he is, to there is, one says not to where they are. This will delete everything. Champion and who has power, who made it, and we I give not talk anymore. It may take years and yet still act all and excuse not speak because to there is I do not give you depart? Certainly it yesterday when it has betrayed you, if you still talk with, or what, and how you see the street is that this summit infinity. Where and when. The other story of course, but you to where you are, if you are to here. " I give not believe in death is one thing to children" they have never grown up and must be treated in to prison or killed.

The tragedy of other loved ones or what happens in your house today. Amazing not to smoke too. The hate ones jail, but these are good people go their whole thought this for to been of transition. Think not then not one will as into place instead I know the youth wanted to call, to where we are all humans and we all know. Read about other people belong and I know on throughout the day. Living in and why not say what they think. Write Why not or say to your place. Back, to where, and then say that was not the way. The people have lost, does not say either. Why I give and who' s closed, because you I give not see why, it' s not doubt you, but, one, or the problem. People have lost though, as the individual meets all the next moves. The important thing that you speak if you want to meet me again and fears eight thousand to here this part of Italy. See that to there are I know many of him and you are not to single character, and your and your City. Lots and lots for each place I know we avoid. We feel that again soon! Regardless of who we are in 2009 and says that something has happened. What happened is, over and down, or fasting, fasting. The point is not then you just have to breathe " expensive see how the air." What was true for me but will be to somewhere to be true. Breathe and phases. Fumes. You beam. Quiet. Attack on the political winds of the evening which is worse, and mild, but it is not clear to there, empty. The serious loss of Time. Theme. Ten years. See it for life, is what the vulgar? Disintegrated you to go to where? stops you die. Another glass of beer, you I give not know who has lost, and tell me who won. Pirelli, have decided to say nothing more. You can look any morning. You are to " terminated". You are normal now but from something else that you say. The act was, it was. Era or age. What happens is boredom and what would be today without problems look how many people to there. It is boredom or is that short or that you are already in and to crime against the person. Boredom is Roman, today and tomorrow in Milan what I give you think, of living in Calabria. Your system to live was wrong and who we' ll say. Separation of assets you should call this thing that runs through the City. The taste of things good and true, and that of the bad things. The things you know are the things that you can understand. And ' it all wrong was bad, just as death is part of your life. Notice of complaint. Exceeded all lived in good or good. Good. These Where things exist you are not to there. Have to the starts from primary schools that is not wrong, is that stuff that you attacked him. As evening came as the surprise with the woe is the life that you said, I know begins the speech that you experienced today, what you have not done I know because you to were with him or her with you. See how many people like into you and they say that the feast is here that they are strong and winning the girls included. That nobody has done anything positive there, there' king lost, forty floors below mines. Even coming to here but from another person and not just me, nobody is in w..l And why those living in and that is under way. You have been reported yet everyone wants to I give like you and me.

Tomorrow will be all illegal. Who wants to speak up if you stop now you opened your mouth will be other problems. Your word is dirty or is your mouth. I give you want peace, you have to call. Soon does not last ten minutes, then the prison, to where you' king lost because you' king too compromised. Most problems are the same for everyone, but now is better than not continuous, or loads friends you might offend. And then it was stretched to little ' you should go and finish the evening in the kitchen.

You know elongated for you, it might be like to pear. Ok! the speech was long. " From" confusion is not likely to I give anything. Too many things I give not know but these have not been made. The solution is beyond and is not to declaration of belonging to them that you are. True? Hello.

The have already, that you wonder how you know that you are already live. That is what is and how that noise you hear that wants to like into your house like in every home in your City. Troubles to were not, to there was not distracted. Others have done that you transmit and your friend what you beaten or killed just because they say " what" that one can not talk while you see them passing fast in your home. Docile Even those problems that are usually hunt every Time. The am one of those who have already done. D.

And what you said or never said. Nobody escapes from his beloved reality he insinuates that my him you that you' king not even then he continues to be to lawyer. See that the reality of people is universally opposed to the idea of your day. The world will cease to exist you have any idea about it. Problems with unspeakable words without explanation. The solution is to go without stopping. They are without their problems head. Obstacles pure. The law governs because it is always after you will still see daylight. The question you asked is not yours, you will see the light of day tomorrow. It is to questionnaire to " national" , see that to there is nobody in the room. " Their friends." They I give not exceed and .I and are and .I and another. Change topic? And then say mambo. We are already dead and we must pay. The know that you should not talk but you can laugh your or my experience that one says that you look away and then you see not where you think that nobody will believe tomorrow.

The power of ignorance of what you want, experience, bad things, or to where you live in Calabria.

And you believe that a letter was black and white. There was nothing, however, there is hell and the death of the flesh that you have him and nothing more than nothing, and only just. Continuing the evening continues then it ends and you will see the light of day, the better ...

the law and in short, nothing will be tomorrow at least one day on Earth. The rest of a day's work. I think it is time for this latest murder, sleep here, or is a criminal offense. Good night to you. Bipolar.

This evening I do not have anything to do. Almost going to bed Saturday but is not writing to tell you what I think of so far this evening that the words are lost and there are more reasons to live here where it is said to be present in the world. Exploited or just are not the same thing misused or is he free chicken? It seems the same because there is no expensive then all the problems that people today know, can not do without that stuff. Do not you live for what you say and who exceeds, it passed but it was not for the driver and goes to the next machine you know is so beyond supermall that he is not me is it is a different key is you and me you do then where are you and where, therefore, be alive or dead.

The memories and things past, disgust or appreciation of what was to tell you that you have the e..l probably think you know where to live if you're not in b.. And your dreams where you should be with all people do not study here and then you see that what was wrong and so does not come back, where you want the state, you to say, and send to that country by far that is. Where have you lost not live where they say today with gratitude for all those problems that is not found or is not research. The others are dead or not we are and where to go, better go visit a doctor or a lawyer. We are big now, or is your time that has passed very future. Night who does not want what they say they produce etc.

Rested not your business if you want to know, if you do not act against yourself, if the thing makes you e..l And normality. Again the problem that no one says that one can do while you are with that and you can not short. I know, we know.

You know how pleasant to live here and so dear that perhaps we know, and you do not say anything because you're not here and those things seem scissors.

You have not lost are not lost, moreover, there should be a doctor to rest for us to even imagine a society where we all had to do without him but as you can see people have to do that well know, that does not speak for no mistake, if you lose that you have always lost so be careful especially if you're in Italy. Not goodbye, or perhaps you're not here and who would be laughing at that. Hello. E 'is already a matter of who you are or a firm with six state what you are saying, without thinking of other small social problems or what has not.

The memories.

STOP

The wrong direction or heroin. If you want to understand what is happening so you have to avoid what they are even people saying, why have not thought of. The code words and deeds that do not change.

Have been operating but it is better to rest.

You must avoid it do not short. You see that on Saturday evening is what you did during the week or you are married. Answer the phone that there is so much here, no. The contact is lost. What we do not know and I'll tell you what you do not support your unresolved.

Know everything has a name and all things are described but no one speaks today because today is a little too much for your life today 21.02.2009. Today is tomorrow so who knows.

It 'true that just what you know but who is deceased!

Still do not believe that do not see that they have lost, and you do not know when an expense, when he goes, is not the same thing. Incongruous situations where you're there, grow and understand. Will understand until the end of the radio is turned on it will be safe.

In which century is alive or safe This shadow darkened above and around you do not pretend to make "get inside of you tonight." You know this part of the evening is full of very special people that the day they have done nothing for the usual and serious issues.

Who is to blame we are somewhat 'untidy to say this, today each of us knows who is to blame and so many colorful things. The fault is what you said it was time ago because if it happened, something has happened so long ago, not five minutes ago or ten so do not talk your way as those of. The transparency of your body and something else that repairs are not lost blood for the rest of the day, then that speaks to you. Hello

It was all so fly like leaves in winter, the roads and streets with the good taste of what it was. The work should be made.

Alone as in your small group you can not deal with matters of state but know that you can satisfy your eyes, made confusion in the days past the problems that are sure to talk to others and that others do not speak of them because it is too much, as leeches and not things that are said from the horror. So we lost that too. You can not be called if not in front of a lawyer. The rest you know already worked or girl that you would be better to turn on the television. I go to see if it was coffee in the kitchen.

The summary of the week where the world will be left is what you want to know not remain within us. The first instinct, the rest of the earth that revolves around you or without you. Vitamins or medicines.

Moreover if you look or where there is not. The ace. Do not ingest. What to do or what gives you the air.

Expression, pulse, meaning. Better not be polemical.

Long time, today, yesterday, what did happen.

Hello.
