

FUTURE SONG (POETRY)

To understand the b... and must be enrolled in other words must be alive and being smart that is not sleep all starts sleeping with that is the magazine.

SURPRISE ME OPENING EYES Find sometimes in the future that is now looking at the technology and I am thinking that the future really comes:

What we are fighting for wins to secure the first issue is always able to stay even bodily us to view.

Everything is finished so begins the theory of a better life and then pack and consumable because we are finished and made drawings and theories that impressed our day, as primitive drawings that have since the beginning and are track of this theory

Leading to the future as a port that eliminates the time, and opens the mind the moment without perception of pain.

Not really happens in the b... but as a dream is realized the image of your dream:

Timeless opens the story without om... envy of the sort.

Finding a common language is the basis of the discourse that takes place in reality more or less hairy:

The memory of having had ancestors.

The Art suffering is not part of the liberation because after suffering the discomfort.

I was never a genius no problem to start the complications are a disaster, we did everything that was necessary, at least once a day if you clear out of habit, and live in 2007 you can have confidence investirai not deceive, what 'stuff is True liberation.

When the water is finished, I put on leave.

Do not suffer at all, will not miss anything, and, alone, a world of illusion blasphemous have done everything.

WHAT YOU HAVE TO DO IS CALL THE FUTURE.

Your future life, which should arrive, and you are doing and that you want to remove, that is, you want to die, and you to them how many wars peace then there is no stopwatch to understand what was not and never will be, for them not to have yet death.

The problems are lines of death. Words can not say are the death of thought are places where you can stand and not say much because nobody will believe you suddenly see that, see who is the evil where nobody can say it was them is evil.

NO places where it was, you could not say in law as the law and we will win if we are there.

The end is the beginning? G-..
