

Maybe you want to listen to some..

Diary dear friend, beloved friend "exist", we must begin, and then it closes to sleep. When it begins, after coffee. E 'already arrived, not to say that has yet to occur. Other words they will be written in another book, perhaps one above the table.

Easy, you say another word, and it's all over.

Perhaps your friends older than me did not use many words.

As it were easy to say the same things that you need today, not to go bad.

The destruction of the false.

Who was there? And after what will happen.

2010 has not done so are innocent, they have done nothing, not even have the urge to say, but you know who would support what was difficult. It was not the time how many mistakes you made. Your annoyance, and the future of next month you do not know exactly what will happen. Accessed, it happens for him, seeing as you know Mr. Complaint.

The end of silence that you do not raise your monthly income, right.

Do not you realize how many things have not been made, by his great numbers.

Or is your flame that has been modified, with another from another manufacturer.

Fascism is not a breeze, and, for many to be forgotten.

That's fascism continued to write on your way down toward his goal.

Mecca.

You do not know, "you", this was what you could expect, prefer death to your people, calm down I'll tell you that even he does not know it for the time that elapses from the one hand, we also look where no one sees, the others are false are others, what you wanted or said that you had to be, or even to make other, and you'll be by yourself without your "to be close."

No one here knows anything in Europe, only the button.

Telecommunications.

How deep is your pain ... what has just torn the law. What is wrong with your friend.

The night of your best nights.

Do not trust, do not trust. The action after the move. What did you see exactly. Who recommended because it has not happened all those who wait for you and for others, I know, the future has not changed.

Unfortunately, as you see, right next to you that you have betrayed the dagger that suffocates you, no one says anything that looks no better and he Wind, Tim, 340. Voicemail, phone turned off.

The future already knew good digestion, there is a heart-television movie, hello.

Do not tempt me to the dark side "or your".

And then you attempt to resell and where you wanted to believe that big question, most of these, you have to be careful with whom you speak in our own time, which is brighter and clearer than the frost in the morning. Works only in the sense that, what do you say the word that works for work, did eh, why you do not speak, we are harassed in underwater worlds, you are so you know what's so "cream." Assets that you know there are those who already live there where you are, you'll hear about today in your city, as they exaggerate, heard about them. Now I'm going to book another coffee, another has understood. Here you might break.

The Notice if this happened, maybe he wants a story as a fact that makes you a better understanding of you or behind you that he is not a good thing to tell the 2010 if we are in 2009. Uh but what these distortions, which are dilated, lacerations, no lizard nations, Lucifer, rat, gashes to the throat as dilation and thought, or "Notice if this leg."

One way, to where you know it was not possible to see you even know. You know you have not reviewed any more, it's all over now, do not worry, your voice while you do your body moves or you're dancing in groups. You must be careful with whom you talk today. Ah, but you're a girl is the same or at least will have passed the nineties, eighty, seventy and sixty with all their revolutions, that if you can be paid as state services, which can be reported, if only to tell the truth. Finally begins a new year, that's not taste death, otherwise continuous live. Other people exist, and are those who know more than that you see on television and in a concert or theater, not those who know in the future.

The awakening say it, you want to tell you or I say or he says so in death, but says that what he was saying these things or look at the sky that I said shit, whoever your "social problems" that are sitting next to you to table on the bus etc.. see that you wake up today too, that you're alive. Good, you see I'm alive, I that I should be dead by the train line in Rome, Milan.

Maybe you want to listen to some 'music before he died, which then tells me that the well head and the air is hard to understand the confusion of that terrible word that we shake this pain that is evil. Nobody sleeps error which caused him to miss the life, dear, just below your house or around the corner. He is profane, Christmas Day, with a meter with the cm if the move from off me, you see him. Your favorite city as they say the grease on the fire, maybe you expect a picture of what precisely the way you want and follow Carmelo Bene melts, dissolution, which is air burning that problem does not resolve your imminent failure.

Living in Rome and Cosenza what you like, what is the cure, failure, your favorite perfume you're not you, the world is exceeded by no one as ever resolve your question that was your world and your people as You see them? Large to small, there are always the same problems?

How I can confirm we work only in that sense in the care of knowing with all your troubled past, who is dying fish. Listen to the air, which is the best tool of perception of this century.

Again the fascist - fascism, never mind know what's what with her stories of boredom, where in prison live better, not what you wanted to find now, topic of the day or day view, day or preferred the gallows hanging at home waiting for you because your mistake, you did miss the life you want to govern.

Your problems are not your state as well as the past is erased.

It works like a computer, you will go just a little 'yes and no.

The outgrowth but do be quiet, remember what you're doing now and who you are, the stake, you're alive, the history and the past is a game, stuck-li, in public places such as history, you live today.

What was possible, it happened this afternoon, which is a life so to speak, because what will happen to the rest of life is all described in this today, it was not anything I'm tired want to arrest me swallow that stuff and you do not frequent worry about anything, that life will always be the best way is that running a government, "he smiles he looks but he is already dead I know, you do not like this phrase a woman, but it is afternoon, I want you to know that you exist by force not dying is never spoken of those who speak recently, I'm home listening to music. Make late than early.

Your pace, you're alone, you are left alone, not crazy if you can, see how many walls.

Your daily constraints disappeared together with your most powerful of the spirits see, and can not see your mistakes of yesterday, it's you, today you had to go bad.

Errors throughout the year, the mistakes of a nation with a population that looks another good trip in 2010.

Now try to move you in the right, you "saw" that is six also saw more you view, is what you were saying you were thinking about trying to get in good, good.

The rest you write more later in the meantime what else to think about what day it is, what a beautiful day is one that interests you, that I care about me, what re you back and certainly do not worry that the property is made up specifically for you, dirty country living, and where better to go live until it gets dirty "who is evil" is a social problem? your husband, another.

See the flowers depends on what and what color, you see them, then the thief, then pause, and where are you, how many walls, how many years that in 2010 six.

Now try to move you in the right, or being half asleep persistent, existing, present, what did your own business you never managed to do even that to do, what's your own business?

Your business, do not say anything, Saturday, shut up, not decided, if you are women, or man, is the general problem outside the walls of the house, your, how ever talk who the authorities do not even think, who you are is too difficult, and already know, you're not there, you will not because you are not me, where are you, is not a problem, just call, at times, to know the geographical locations, the rest you can ask, but many things can not be known, it is not polite, polite but bad word you sleep even if you're awake, and are also trying to get you in the well today, so I understand. Go

Chimeras and crystal ornaments, mirrors honorary your existence, what he says, vice, better not to talk with sugar today, the state of arrest on Good, more, nobody has to know anything, so should not work, the girls are so happy ... that does not work, so what was the need to talk with all the hatred of the city wakes up in time, it is better to get confused and Canada, what a beautiful wall, talking, good day.

What he says does not have to feel, watching ... has ended because you see here, we would have to do today with the work. It 'a war that crosses the whole of Italy for some time memorable, and now comes to your house.

The tree wants to stay.

Still, you have some flowers for these kids who want to drink.

Another line another question only that the coach is past and I'm gone.

Make your own good and where it says, take another bus, where is that marvelous story.

The phone costs the same as if you go, many of the earthquake in the world, and few words, to make sense. See what "view", see what they wanted ... and to whom.

Who do you speak, who you're thinking, and who are you going to speak, are indeed many problems, but problems are portals out of the house, finished with the advice and, what do you know me.

Another line, and there are more, the explanations school with those people, we want to make you spend your life to remake the accounts only to find elderly.

Talking is better not to sleep, but however it is time to rest. Good Day, New Year today.

Hello, good year.

Smile, goodbye, see you soon ... too many things.
