

THE OLD AGE

Still remain to live without the possibility of not believing. The certainty of knowing when it was stolen. So I guess my old age.

A journey through the loneliness of old age is a comparison by which life can not "betray" is much worse than say a marriage. It certainly will be a very political question and a social piece that was part of us when we were young. For the imaginative view of this with its developments that never ends. I think it is a moment full of life not only to remember but a deep knowledge and awareness of life.

A mirror, I do not know to what extent and need to know that evil that takes away the dark and light the real truth that still escapes most of the declaration of the word and things, or acts that all dream to be present.

Where do you want that we meet again. I know that place where you said that was better and see how many problems there are steps-as to the who knows a lot here. Land.

That monster who should avoid coming to the point is still there, that does not know that you want, there will be one in my town.

The problem is to say where it ends your ability in speaking with him the monster. Even from his elderly live. It will be a problem of "contingency".

If there are still such problems when I am too old. This is the fundamental axis of movement toward the elderly, but that is not a problem given the large amount of people and ideas that bring us the days ahead. It would be better to cancel the loneliness.

Hello Arthur.

The universal part that the world has changed and that the words are even more useful than before. The world has changed is a big subject of your and my town + many others things. Everyone seems to be in play by children coma and no one knows what happened to the party not real but the dream is said discontinued.

You do not know what you have done or because you are not quit despite the house only to go through some things, because they are not in the air and water in the News Media of your "main city" that no one can say those things for all is so.

Sometimes it is difficult to speak is often prevented those cases where your time, I did not match the reality that dissociates from the present or most of the recent past. While

the century we should be, and remain so because it worked out or the future prospects are very different and not a fee of ideas as the party wants to make you believe. The belief is expensive these days if you do not know. Cancellations can not last forever. What you see and what you have already started up the century of the property is like a light on the other side of the framework of your sunset and sunrise for some, to be see that light right and left is neither a 'other that heals your wounds.

Build your taste, you will see that inside there you will find an egg very beautiful, and no one says anything to the taste of gunpowder so you say that those who do not yet or are you more about this speech goes out the staff page.

Your delivery address or your memories and how you see your dream and sometimes appears, and then lost to him that we are serious mistakes that one loses all that disturbs him. Break out better it is true that the morning becomes more "high" but all those problems treats and transports that are not already a joke, and as they say in Rome, it was not just that more is better this way and then you will see words like that after someone speak. It 'a world of garbage but it is not wrong to speak. Your thoughts concrete. Have you seen something wrong. Hello.

"The loneliness of death" issue just as the other treaties are little understood death.

Arturo Hello, you invited me to a topic that still talk about this composition. Yet many greetings, thank you, Gerardo.

The loneliness and the empty space sometimes the words do not go out and do not succeed alone outside. We thought it was not to be concerned about everyday problems. A tangle of essences and absences that do not build it or said dear. A question of weights and measures of time to do that later. Space above the age of elderly already what will be and what is being old. All in a dear and beloved is mine, but a kind of thing I look into your heart the false and the profane. Enjoy your meal, but you do not already know the current population living in Italy, you do not already know me things that are not well the sweet taste of the bad and the real name of your child and those things that way then you're looking for me you tell me not me to you what you should say.

Here we are still here, or you thought you had said there was no more or no longer had to be.

Study or read. The time between a pause and the other happened to you then, you add what is yours.

Old age, you should not ever lead to loneliness for that kind of death that is very suitable for children. There is certainly, because this may be the future here and the words and sometimes escape or heard many bad words, the example. And then we're already dead.

How many things are not made many mistakes and when we are older, we want absolute peace here among the twenty-two and even thirty-six squabble among themselves and do not know why, and fly them out of the window the problem that nobody knows what is proposed and is not nothing.

Elder to be a boy is a difficult question how serious the chance to say one thing at a time all the other you could not tell and those persons or objects can not be you. Who plays on those things where you came that wave already strange to you is not never happened. Be careful with those who remain to speak and nobody says anything to know. The chance to live and how to use the elderly. What is injustice and abuse has increased by law to continue to live is stronger than you or you know only the good. The law, the history that is written expensive than is the reality is the truth. Courage or wrap yourself alone then that the problems do not end with death, it is not true then you explain, even if there is life after death. There is an eternal life and then a posthumous one for which people will go crazy on m ... and nobody but unfounded and says here that walks around the problem and including life after death there is no doubt that you lack the fault of a few good "velociraptor". Always try to open his eyes that he is in January 2009 and has failed again to kill you. Escapes and should be invented as well if you are always at war with the state to which you should make another try with your state.

Or we do not believe that you are good.

I'm going now that seems your problems are your one day, especially international issues, should not continue because you're not here. Your assets and your city normal. When you get here.

It should be good at any time make a report. Indeed at night to three or four in the morning you can see better what happened the day before and how do you lie and say that I do not know, and then know that it is not a personal one you're looking at, have not, you have the wrong people "live" that big word there and one that performs the task of that is his general. See here how it looks clear that the world turns and what he said yesterday the atmosphere in the evening hours for those who go to him and say that you will do later. No one lives in a wrong place we are wrong and I said that I must do the same end, and nothing is everything to like this. That your "first" is the evil was never told who the bad or even if there is evil and who won, it seems your air but if more than a million people, it becomes real. And 'the story has changed, and it takes strength to rise and how much in 2009. See those objects are expected that the property has passed and now we see only the future as before. It 'a matter of regularity and increases in percentages of himself. People arriving later. Life after death. A legal issue. What we do not say that does not worry that people they have discomfort over these things is very real and not a fake.

One day as another discovery of the already far over the ocean and I recommend depends on the floors of your home here in Italy. Strange star, or as short as are many

strange things in this world with the cadences of a universe of perhaps half that Leonardo or Descartes was talking. Issues so great that several thousand people involved said it was confusing. The moon looks like a flat piece of film I've seen. Stop end of the movie memories lobotomy and who said that must stop, or where it is complete dear minister representative from your state. Problems that seemed to have little international - are all the world! And empty of memory and discrepancies between your nearest and older and that we'll make you ever wondered why all happen to be older or you are already become a pensioner. The major visual or major beatings but they must be few problems, I feel we are continually beaten otherwise saw better. I will be tired but tomorrow is another day and you tell me how it seems to me that feels a little 'long time but I believe that there is neither will last until tomorrow. Break. America knows what they are doing today, I think it best to continue to Earth that land is neither too early for these problems are discussed. Being elderly is not a sin as being young, it's just a great repentance, the problem is resolved then there is no second that you are calling a. A division of the parties and those so horrified say "guilt".

Did you finish the pasta or not you have more appetite.

Better to stand and wait for where you live is not quiet that words are not just words but to say it is already an abuse not only think that is probably right where you are here with so many wars and persistence and belief in real things and real does not match my walls and everything. If you do not speak, do not understand if you do not say you'll be wrong and even if you have what you have done. According to their do everything alone. You have something to the contrary, since we all become things and those things and not construction or manufacturing are not the people who had accounts in the hope of luck as they did. Will continue but without punch the air and so sharp that almost suffocating. End

Do you want the will or the power and who he is, no one will solve those problems, all we are already so good that the pay is good and convince you that he is the winner then "there" today and how many cuts you down when you have sent, but the line is always the bus stops at that point and your bus is stopped at the bus stop has been a couple of hours and offends no one and only the air or life.

See how the sun rises over your night.

Good day after all that has happened and what did not happen. Why hold firm as the head by a part, is resolved without the other and you and you will notice the same thing is not resolved before then there is the universe then there is if you gliel'ha, please sing today.

The well has been canceled? And who recovered, was lynched for wizard or witch.

See you soon do I have to go out of commission and other things. Hello.

The dream of the dream that is where Where were you can not even imagine where you were first five minutes ago who came here but it is difficult that there is a whole person. It 'very rare, you understand what you were going to do a lot of times it was not your responsibility. Your defense by only go out and go on. The dream that will not stop. Not sure of what I wrote or what you want to tell and it is absurd to become the "report" you understand to me plan to continue alone.

Still not awake. Hello.

Your life still takes place, I hope from your shares because the idiocy is great when you make and among the other life is a waste of time. Full of news as believing that what is coming from the well is a syringe fast now that these children have already taken eighteen years is watching what is seated nearby. Here at any age you are pears after eighteen years I have also sat watching television. Because you know in Europe, believed that it was alcohol that cancer as a root that supports up, down and heart were all here the pears, if you look in heroin will make you see that there is a solution for all of your and my problems. You know air here is not just lie here, but in these parts. What we are saying that the complaint should be included for an entire part, not where you come as a train passes over the way you're going. Will not do anything they are the culprits.

Old age. The dream that will not end or maybe something in the teeth that ...

The world was stunned when he was declared the truth, the objective here is saying it is, a, we are still here, I knew, beyond the grave. With a little 'is calm clarifies your screen full of blood today to Sunday. After Saturday comes one day of peace, where peace is for everyone. Strange if you look around, there is not even the air of what must have been. There are people who ask me about the structure of what you want to just get up people can not do evil, you're still awake strange life that I am awake for about fifteen minutes.

Evil does not disappear, but is treated, and passed, and it is not true, that does not exceed that this is not really see how long the climb, is a staircase of a thousand steps if you want to know him better and has not disappeared but they left, it is not true that talk of evil, it is an offense but will be only memories of when I was a boy, even if I look outside and it is the reality, already heard the words of the latter part of speech is not guilty but belief in God

E 'in the secret word that is your main interest.

As the world goes to watch stall, people and colors. Your trap and big words that deal with small people during this disaster. You do not know, I have not heard, if you sit them speak. The incredulity of the people and the strength that is not expressed to achieve your energy for your breakthrough that no one knows to be not you. We still believe that evil has not been passed and say to believe in God see him your friend or friend does not know yet at what speed you set, because this is your lake ridge or if

you want to better describe the s that you frequent. It was the reality, your dream or your friends and what hours do not discuss bah better I know what to do and what they do all the others one by one for everything that did do something.

Discussing the vacuum that we are all equal. The post the other day yesterday called "equilibrium" as the film that is a swastika with arms extended from the sides.

While that goes ... I do not watch. Well you know already live now, where we live and the others. So listen and see, however, become old.

Lose everything to make it short then take what you find in the room and return home without your instructions do not think you understand but in reality it was good.

Speaking to grow but I say that is a big word "is" the vacuum and disconoscenza the individual person. Watch only the rain that falls and it is He who wants to lure you still alive, her name is horrible. Even the elderly, couples or not, it's always him. So we are a step away from heaven, that you and for any reason you can have everything. The complaint is required and where I go walking in another room you'll see that it is made clear to the there is no solution to a problem already solved that no one says if not its only solution. You think that once you solved the problem will not be anything in the memory of what was and who was there. Too fast, I tell you that I'm helping you that this is a help.

Lobotomy in 2009, aid, another die. A demagnetization of your conscience and your memory, the past, recently. I think live. Everything else is boring as the song down but now I think that will end it is made late been a while 'to write and very difficult to speak to a contemporary species today will be in January of 2009 and then after eight kilos of explosives on him in February will be better .

The reasons for not being a great person. The higher benefit. Freedom is the same for everyone and you understand that if you understand a word that is blasphemy in some cases these days and then the conversation continues. Hello. Where are those things. We are always in a room I said a few years ago, if you do not exit out of the same and errors are always more if you think about but the thought is nothing if you look ahead to who you're talking about.

Horrors not of your company but air.

The common situation.

Drink to you that you do not know you speak or talk. There are people coming and are trying to make air, where there are. I know that the balance is important here but if you need a translator for every word and feeling.

When everything is lost, nothing was lost and missing persons to the floor as the misfortune is part of your life. Want to drink? There is where the pressure is not all it's me but the air that has changed that you do not understand that it is no longer here or are you and what was evil. Life is later. Things not to say television that you must be helped as a senior as if life continues even then you do not do not know what to tell you that if you do not ask your in place - key it.

Here there is none. "Countess misery" - cc

The world is already over.
