

Your clothes in the window.

Is November ... finish the sentence.

Those problems are still there, whatsoever. The fate is the sweets.

And friends.

Not possible ... where to begin the sentence.

Offenses and juries.

What the technician, what do you ... (to understand.)

The design that not a glimpse or a mountain of things ideals behind the wallpaper on your computer too, those who know how to do these things or who the thief as you see it is there and it is as though this should not be there. Barriers of your brain, your age or body ...

Want to write you or among the many things I do, I'm down, already resolved everything.

We say that is more a matter of being that is you being yourself and then who are you not more than what you're doing, then be there as being in existence that is life ...

The question now is whether you are alive, after below the issues, which today is a day.

The mystery is ... what is forbidden as well as taboo.

Look how beautiful designs are everywhere with that Sun, which grows as each day does not worry that you create hunger and light. In addition, here everything is included plus the word all.

The heart is like the echo of people who have spoken, there is always something you see in social discourse, bureaucratic, this depends on what you "want", you understand me or what happened. G

Fear or distance. The taboo or the silence of the institutions, where the vulgarity?

The redemption plus calculator, remembers the computer to do the accounts of this life by two hours or two occasions going forward, here I was finished all I wanted to tell you.

Now begins the new and it's like you know the taste of fresh fruit beautiful Italy.

Or the world, your border, or God ...

Who are you.

Lost. You lost, how many years have already passed many more. Who has lost you mean, you say how beautiful it is "lost" forced to bark.

Want to incriminate or terminated or whatever suits you better now or if you want to denounce those who take care of you than the webs, the fear of tripping, look what you know. To

But even that is too do two things at once.

Good is all what you know as if I were a God on earth, to appear.

Chapters in history and culture "in" general errors resolved all men forever, here will seem strange but I'm here at this point the other in general, where we declare our state, to be present.

What happens today, what people do and what they think everything has to come to the shore of the light of the word.

It was not your personal experience.

We end up again the phrase, but there are still many hours in the day.

The various games are not useful at times we lose not identify. There is a universal language that speaks of poverty as a flirt.

The good is the declaration of a state but if you want to know, is pretty far from what I "saw" people in those days. Everyone works, where it says it is not true. Everyone knows what you want to know is not true but advised him see all are busy because there are not so good.

On the other hand, what was good? The future is good! If I speak with one I do not even understand much that is displaced outward and inward.

Good is good when you want, go and act to find and meet this "object" is defined real. Why do you do if you did not understand the chapter where you do not have a text written what they say and not speak on things you do not say too much because it was the sorrow. Here I have described to you "where does the phrase" because it is written and spoken English and communicated to the authorities is that the institutions, "the" capitalized institutions to people.

We are almost all the people we are, where does the persecution that calls the complaint. Later today the sun will grow until lunchtime and over, I pray from the path right down the gate, and continue to persecute, see how many are evil in every city and country, all with the same "game". It is understood that he had not understood. Far. It is not for everyone, do not change those things that are the law, is buried, good day, and are used for feed, or by using the best. Must be passed a person who requires a lot of help your relative or mine these days, when? You decide, good day. G

Just do not cry, let's go. Those who have booked? The rest is boring even if you or the Italians have been treated badly too, but where is home for my female relatives do not want to tell you are where you arrive as you believe the rule action, I was not you.

There is a good thing I'm good, leave it alone, that there are more than eighty percent of the things prohibited today. Never mind you must not leave her but can pass. The solitude is everything, go away from here. You know yourself is easier than you kill or hit you.

E 'finished the sentence, now that you continue your thing growing in his chest.

Still canceled? Answer, whoever kills you now, you see we are getting bad, you think there is anything Pink Floyd that we are watching with an MA.

Who knows, between the ends that one them everything you wanted to say your thoughts. Offenses, and other different things that do not stain in Italian current.

Dying and what he told me that there is no mention of death in the well.

Want peace!

What do you say, but what sustain, who said, who told you, the speaker, dots standstill.

Return.

Who should be denounced and who told you about, talk to those who have not told you about. Or your ruins.

The true and false. The salty and sweet. Etc.

The content and the other word. Where are you going to finish that problem again ... or still life. The pounds of your fat, you always have something to say, just, firm, firm, that we are in Italy. To fly, has come ... the bad words. You're not the person they were looking for and we came here to do. Good is endless! Who are you will also be difficult, but believe me you exist in separation from what he calls the problem or yours.

Your communication system ... in the end you will, here, from me. I G.

E 'already finished everything. It is finished saying what nice person of Jesus Christ that is not to leave out.

I already have the solution, you already know the explanation!

Where is the software sees as bare living here. Do you believe in God for not duplicate God is alive today in 2009, although it is a spirit in a triangle in the sky. There is much more to the day today that you could have, but it takes eyes wide open although a little 'weeping. The rest you know. C already. Like the rest I know and it is not true that there is no mention that there is no way that things are resolved the same time. As there is no good? One k.

Tell me what you want to remember ... now I do not tell me more. Increasingly that part continues to be good advice to avoid the cold, because those words, cannot, say but only to justify. Trauma consequences.

Tell me who speaks to you and tell you who you are. Who wants to solve that problem. The building or outside the home. Things that do not interest us. Professors, professions, religions and prophecies, you're there.

The rest you have studied in school. E 'school exit from evil, only that you cannot say that word, just to be there where there is not then you should not be. Errors at this school are said to be approaching two hours after dinner. I already have the solution you have any doubts or kill me in two hours and did not know anything. Money stock there are any. Good night. So ends another day.

Have a break that I assure you dear, on the other hand, looks as lost time, looks even more than you how many times you've said the same words but that basically sometimes you need to go back over the steps more just to help you along the road tomorrow.

You did not know when you were down Italian staff today, when he was a strong challenge today, a day like any other. Today is a very important as now, you have to say something, think later. Heretics. We are the other word, what I have refused, you have to do, you and your needs. Duplication and identity thefts. You speak that you're here you're there my resolution. Not talking is worse, not to mention that it's worse.

Who knows who had this great idea to do and say.

The time is past is served. The law says.

The good is the rest of the people not you, but if evil still exists.

The silence and darkness even the occult, what you see is what there is, where it was possible. What do you see? What do you think, it burns ... about you? Will he be that has escaped like a fish of twenty or thirty pounds.

"Need" Do not go bigger than that heard cry just woken up, wake up, watch, clock and sun

Exceeded, surpassing things not so large as to offend the good. "B".

Ghettos , cats, after you go into public office, as employed or as a patient.

Assumption hello, where have you been a week. We know your friends better their lives and everything that happens in the next thirty years and they to you to you as you end one day. Other, even more. Institution and the institution.

Also good is not a personal matter, especially. You do not talk.

Knowing one arrest. See who is alive is not all that bad that he is evil, evil speaks and he's your boyfriend, girlfriend, and is your friend. More if you're hungry, eat then met.

Then ignored, he comma him the ball, the question ends just as the rain when it stops. Then who is the art or the structure of human activity. What do you do?

Returns and find what was that you left, what do you find? Did you just get used to. Here I was in prison because it is so true. The usual ones as they are called not presented. Even complaints. Watch as the sun spends in contrast, always, a kiss, G.

E 'useless. Lost. The state is only a small fine, you are hidden. The things that keep you hidden. Your preferred price. What cremated today.

The light of the sun Dreams and other things, all paid with the taxes of the other months, good day in this office ... where the public can get your arm. Continuous who is false "I" or who lost.

Your favorite dress, live in evil, a devil. One form of demagnetization of your memory and how not ever go out from this problem. After lobotomy see over there, all of my business they say, repeats even. If you wanted to talk with another who is also dead, so I have no claim was you or another even if a foreigner.

The resolution of your problem?

And to whom should (should) talk.

No problem as long as you're alive, you're in lane to go.

Goodbye.

See other people are than what we say, but your clothes are always your own.

Do not see (see).

Fascism also means that you do not know because they take to get here, you have to overcome even the whole century (1900-1999), because the good has already happened. Etc.

Hello.

And it is after all or hello. To understand what is good or better must be turned on or awake alive in the sense that you're not sleeping!

What is a slow motion, are the others that will give you a hand because of all the question, problem.

Well. WELL.
