

## YOUR DARK ROOMS.

Somewhere we had even started.

So begins the removal of what you're not.

What you can understand why is yours and what belongs to you.

The deep into your lap.

Space to make it trying to understand. Background word or action. He or other study that we open the door to more serious offender.

Divine chance not to believe or not to be. Talk.

It 'a day of the festival next year. The reality is that, we moved to hear that is true. Current m - e. Yet. It 's so difficult. "Even for a while" Hello.

If you repeat with the usual thing, the better you accept or you must take and build a law on this issue.

Errors newspapers, forms and documents, forced to see those things well in front of your life. A lot cursed those troubles that make your life a sweetness. Thieves. Here no one has ever talked about. Who does it first. Those things that live today that no one tells you that there is. Perhaps after having eaten.

Beaten and frustrated. Problem life, or your or mine, too serious because bait along with people you like. Rules thousands of precepts to be met without ever say that the error is not part of life.

E 'your commitment to others and your presence.

Errors, commissions, ports, areas, sight and accuracy you think that is false or misleading life is what it says is a package, such as software. The marvel of death that heals from the vision of what will live forever, ideas and voices.

I do not know what I explain in two rows right to remain silent. Do not get around.

These are the people, those things are different individuals that create the difference in your "empty".

What is there. There is created from scratch on. Pause that there is not much time already without anything, you have nothing.

Here, those who govern where you live them. The evil that governs, I almost choking, again him the "thing". We denounce, to have never done anything, do not realize that nothing, and accustomed who live bored after that is like the first. Without money nothing is done, then I say the idea of what you wanted to buy a child, where are those things that are fancy people.

I assure you that you are not alone in this "special occasion and that is the ugly. And you wanted to tell me after they talk. The problem is a shadow over the world who are already here who will go there to do.

No need only the total absence of everything. Where to go where and when and where to start to leave the word "problem".

The name of the game are here because no one party is missing you or is the wrong that you attacked him in good small problem. As a cold shower.

Will be five hundred books to read to learn. All good things are prohibited know that the duplicates but the truth remains your way without errors.

After the evil there is no evil.

Those you want to bring to a part where you kill. Where is not there, where there's me. I like me or as a person. That may sound good is an open field, where there is no one then kill them forever.

Exchange of normal person here, and here you are a curse to be here. Where there is no evil, and it is not true if they went and you did not know even your mother. It 'the air we breath that nobody makes anything. It appears the usual song is the life that sadness but not this what it was created by indifference of the "tragedy". Who is he makes you swear by "mistake" and is all, yes, all wrong. To get out of here must call the law with the police and the lawyer. Since dream or that no one dreamed that history is a tragedy for others in their lives.

Old with all the modern than it live because you are alive. People who complain about "the future is the past." You have to avoid is the serious scourge or the smell that brings immense as to call.

The existence of the need to distinguish the parties. I am not one hundred points to him all "not dead". Do not carry on like that you may not enter the homes of people like that.

Good day inter alia in two weeks will be Christmas. Good feast.

That is, do not believe that people living and the need has become all-in cement "dear. There is always an explanation for life because you live and what you're doing because you're doing and also the opposite. What we do is an act will only arise policies these days that is modern passes, but smell of centuries ago and true as the leading blindness.

More true, even more so here's the reality that is "unique".

Everything has changed. The world, people and measures. The world has changed is not true. It is not past is the future. The words have the flavor of constant renewal as the rebirth under a new sign. Renovation and renewal. Anti death in life. Dangerous things they say, others steal, people who do not know anything. Things impossible. Thieves. The beautiful things have always been and will be the right ones like saying that after you see your thief disappear "that ugly and beautiful things."

The static nature of a movement that will create a renaissance interior of the centuries that "more" called death. Nobody will denounce here and just too afraid that thing that nobody has solved. Changed.

E 'over the music now, where are you going, alone. Um alone.

Things that reflect and gold, that you still going to see if there is another coffee.

After the meal I will have to allocate a destination where there is more to this place. The memories are the keys that even if you lose the keys to enter a house you do not remain almost nothing. You have some 'of those orange blossom in this war without borders yesterday that still persists and does not want to finish that continues to be repeated or life is the life that goes on for that thing to call it that already feels better. And I'm still here. About me or you or the many that he or that. There will be a solution to take the keys and I let you all then another, then nobody in the end there was only you there and I was here from another party that is here.

Looking for solutions of this world. Are endless. Of these periods, where the world has changed, I finished three ten twenty or perhaps one hundred but finite number. Thank you. Farewell you, you hand and where this is blasphemy are only so many but many also finally finished. The blasphemy are then other end. Then the light while it is already day comes the light. G

How many things have not done this year. The folds of what is the past seem to take a degree to understand their time. If you want to complain there is always space or admire what you wanted but where that exists in reality. Your dream is your life forever. Always if you do not exist, because you have shot somewhere in the body. There will be joy, where the state is installed. Where these problems no longer exist and this is no longer the past. As rhetoric. Your present is what you have heard or ten minutes before half-hour before the first day. A harmony of voices and words that you won but that people will not say this but the person who has made a short, where are you going to end up here this year that no mention of whether there six and continuing the history until New Year. Genoa

An extraordinary interest in breakfast. A little strange to tell the world that surrounds us to continue throughout the day stuffed and decorated for the unknown thing that everyone

chooses whether ugly or bad for me is the worst possible situations. Who should speak, must be helped! The boxes are one of those things you said during the week not to exist, there are those who say that "all this talk is wrong" about freedom for the few enlightened and I rest at home with a few friends sometimes heard by phone and families.

The joke in the tragedy and the speaker is the solution. The base is not obvious is the reality of this item but the complementation of a work that must be done.

Illegal and legal. Fraudulent death of "life". Clowns or photocopies of life or other words of other situations you know what it is already past sometimes does not return is certain that someone might take offense offends not good that we know in two or three or many of us who lose the account. So it is always better for themselves. Parallel universes, all terrain, simple and cheated. Denying knowledge of evil and its quantity does not create concrete things to be clear. Then if you feel you're dreaming is worst is not yet awake. According to the laws today that if you did not have understood all of the past that you need to stand well today. Cheaters "in the past." "Memories" in the past those negative things that bad then today sees the evil that is complicating the issue is whether the male child.

It seems to be born yesterday where you live ( "Juan"). Living in the past is one thing, among other business will be well in your company today, where you are. In mathematical boy that you wanted to submit as a past future is remote but not as long as a verb, thanks. I do not want to offend anyone but if you want to know that this is your time this is an offense. Continuing find your ex and your stories, where you can not lie.

The day did not taste, people colorless interests you, where did you wrong because they do not live here or "better" in these parts. Already to leave he stare affair then what is not, that is too much, since there is no one there is life after that great stalk ( "envelope") as saying that there is not. None, only words and bad blood that matters to anyone help, but looks somewhat 'out of your home. How do dating from the ground floor to eightieth piano solo with the elevator and the history you have to tell you if these speeches is that the lift was constructed and then placed in that place. You do not you take me around if the situation should be explained because people in short what you say.

What you want to do that if it is right for you is fine even know this item was not thinking long ago. Respecting the law everything is granted is not true that here is wrong or prohibited think everything was good today where or who knows where they are if the power or the boss who says today. He is who is the host dear boy, I am the boss if you know, power and the law.

What? Boxes. Things have not hidden that light from experience and ignorance.

After everything was the same. This is what concerns. It says here that it is concrete.

Do not ever stop, already, then ends the batteries "hard cell" time for that matter anywhere you had to finish well.

Absence of state and those wonderful laws that would make you more beautiful. I am also tired to continue but basically those are the rules one day you will understand what you think in reason and law, where the well is not prohibited.

Approximately continues so I am I always more I like you, and so all or before me and then all you then. So they say. Even this was forbidden to say or do years ago. Today you who live today.

Lack of state but not to guilt ("of") state.

I ended up now between one and a half to get my uncle Pasquale is missing from my house here a few months from Luzzi city. Enjoy your meal and if you are almost eleven and after lunch.

A wrong blood type "by the story wrong" and then silence nothing worse but someone informed on who is no longer good and evil but already well as always has been known, but no one says you because he's wrong a road well for this. We travel the world together and we are already absurd things in the wrong places just to let you make mistakes it seems the state is evil and I told you everything.

Removal of the brain not only stretch myself here pizzas at home and you are not a Christian believer future death next concatenation. Merry Christmas. Good lunch sacred things to say have multiplied and the time has cooled things are fast and you have not called procedure for a good basis for the encounter which was amended before the meeting.

To throw the whole program I recommended a friend of what we did not pack that is not the state, evil, but you can tell your best friend is that your main problem areas of personal studies ever written and performed as to avoid future for the same things happen. In order to fool the new people.

Where it ends, where are you going to stop. The speeches that make be and light the fact this is how the errors that do not do things that no one will see the people who frequent what you did what you did. What you aspects what you delete the program. What you had to do that you're not there because you can not delete or do you want to forget because it goes after he is back you'll remember is you are after i you will be better, where the boat it will land. Absolute peace truce demagnetized you do not believe what I have infuses that has nothing else to do for him is evil does not exceed around and maybe you believe in him that makes you forget what you need but you forget that the act you had to you is that offense. What you are is not what you've studied because it is owned by the creator. Basically this is how things are going nobody said anything and everything disappeared. Look around.

Where are heated over the hill and is reborn again becoming themselves after the error, they call him on this planet that forms today at the end of 2008 has endless push with all those who say that some 'ends and not happen nothing more that we continue this way and this is life.

You are not an asset any person that is also a single person, your duty is an individual thing and you have to do as it was a beautiful time. What you did not make you remains to be done and after it will need to achieve. Your dark rooms. Where there is no one sees you should spend the whole day and whole life.

E 'already finished as saying that goes better and I know when will end, even if I do not know if tell. Even with these relationships between couples together to live together. Other speeches other things wrong after all seems to be a wind against which we invest, instead was the predominant issue that evil continues to be that way again today without saying anything along the things you have not done that you did not do their evil. Return what you have not accepted what was said not to be true and exists to do the same things and then die as everyone said no then watch me who knew him.

Nobody told you things as they are who they are and then those at the bottom of your great person who is why we can not do anything for these things and you do talk to me that resolves these issues forever.

Italian incorrect after a catastrophe of millions of people into silence.

Smile lately for things that happen. You know once you've explained the basics for existence, it is always better and apologize if you draft one part to go but sometimes the words alone will consume even those without. And it is already today to say that arrived daylight and without too many incidents are ahead for his street thing you want to say if we do not find cornerstone on which decisions or say if you want it all for you. It steals it but what. And it's already finished the day. What speech without being abstruse and charming continues to television. There is to do well, and also all the things to love and to say. After all that has not done this before. Will never end and instead look at who is already finished and all the other things that are objects, but what is important. All institutions that weigh on our shoulders and endless stories that end without a need to do because order in the chaos of injustice. Too much and for too can be a party, where he was before and go right at the bottom is effective.

Here it is not to exceed "on line" but to stop that higher there is stifling and after all we have to do what you want to go back to us not to lose at the bottom of it where you want to rest the next night.

Us for treason and, more generally, or how we say we do not intend to be part of a single person but by different individuals or groups. E 'harmony that creates a situation as we know, but who knows and where is this "object" and after too much is said and where does the trick. G

Many and many a kiss hello.

Flowers that the day is finally behind his light. Inside the evening does not end unless Rome Termini. End the end after it again the same for not returning to a place where there was that time you and I was not there to finish them life begins. If this was unfortunately not take normal light. Where there is already over, there is beginning to create history.

Not anything abnormal happens if we change we have everything we need to life. We do not know but if you leave, someone will find him.

It already resolved what they're looking for people to puff beneath those you see from the window of the house go under. Sometimes just talking. Sometimes it's a little 'too spicy sometimes leaves externally for all the city streets to say that you can not do anything and that we do not already exist try to talk to that strange kind of your friend to see who thinks of "Situation."

How do we tell that you are in my eyes. E 'past long time but things are still unnecessary and the reasons and history that we need to live and it is already too late you're feeling is always the same story we already read the authors "Carmelo Bene" i would be always and only your have your property is that you must win.

Then there are many people who they are arrested, you can turn on the radio that you find yourself, all right, which are the 9:36 and is a few days before New Year but also looks after is the same for these special issues then we'll see after this yet that moves but one day we'll Wide awake not even say that I still sleep breathing councils here are expensive.

31.12.2008 thanks for your attention,

Gerald D'Orrico
